

Counting Notes

Name: _____ Class: _____

Part A: Write the note values on the line underneath. Find the total for each group of notes. All of the questions are in $\frac{4}{4}$ time.

$$1. \underline{\frac{1}{2}} + \underline{\frac{1}{2}} = \underline{2}$$

$$5. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{4}$$

$$2. \underline{\frac{1}{2}} + \underline{\frac{1}{2}} + \underline{\frac{1}{2}} = \underline{3}$$

$$6. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{5}$$

$$3. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{4}$$

$$7. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{5}$$

$$4. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{3}$$

$$8. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{5}$$

Part B: Add the note and rest values in $\frac{4}{4}$ time. The first example has been done for you.

$$1. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{2}$$

$$7. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{2}$$

$$8. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{2}$$

$$2. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{3}$$

$$3. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{5}$$

$$9. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{2}$$

$$10. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{2}$$

$$4. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{6}$$

$$5. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{6}$$

$$6. \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} + \underline{\frac{1}{4}} = \underline{7}$$
